## Levenmouth Connectivity Project

# Early Engagement & Creative Response to Covid

**Freya's Podcast**

Interviews Part 1a, 1b, 1c, 1d, 1e

**RIVER LEVEN PARK | A SPACE FOR PEOPLE AND NATURE**

What do you think about the concept design proposals for the RIVER LEVEN PARK?

# The Role of the Local Authority

# Collaboration and Creativity

## Tackling consultation fatigue through creativity

### 1) Smaller creative activities in nature

- Fed up with “consultations”
- 2 birds one stone e.g. art classes

### 2) Shared engagement opportunities

- Bring partners/consultants together to shared events with the local community.

### 3) Bigger, fun, interactive event that catches people's interests

- BBQ, Band and a Blether
- Frost Fest

### 4) Co-Design Workshops/PB Budget

- Bring it to them!

## ▪ Partnership working – Different styles and experience to engagement

- Many different partners working together
- All have different skills and projects allocated based on strengths

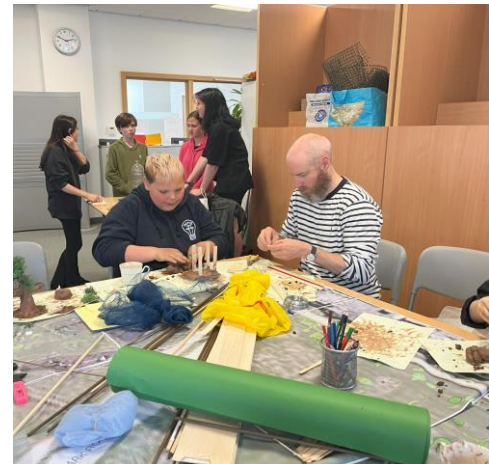

## ▪ How is interest locally?

- Growing as time goes on – 3/4 people to sold out events

## ▪ Continue to learn and adapt how we engage communities

- Co-design and frost fest came out of feedback
- Co-design will inform next stages of applications and events

# To sum up....

The Leven  
Growing with the Flow
