Spend and Claims profiles

- As of Financial year 2023/24, Places for Everyone (PfE) started asking partners to update the portal system on a monthly basis, with predicted and actual project spend, as well as a forecast of claims to be made each quarter.

Why?

- It allows you to demonstrate that you have tight financial and budgetary control of your project(s)
- Allows the PfE team to make quicker decisions on use of that budget in year, reallocating budget as appropriate and giving assurance to TS that the full budgeted award will be spent in the year.

Where to find it?

- Partner project pages on Sustrans project portal.
